

Hello Hovanes,  
thanks for the updated version. The committee would like to know  
when you are going to have the other note regarding the normalization  
since we would like to review the analysis altogether.

Also the committee would like to have a draft of the paper as soon  
as possible to understand what are the relevant parts of the analysis  
that you intend to publish and the conclusions you want to draw in the  
paper. Please let us know when you are able to give the draft.

Thanks

Angela
